

## » HSEQ Manager in UK (M/F/D)

### ABOUT US

PLIXXENT offers innovative polyurethane-based technologies. Whether supplying a standard solution or a customized system, we accompany our customers along the entire value chain, from initial consultation to after-sales support. In-depth knowledge of the development, production and processing of polyurethanes, flexibility in the procurement of raw materials and a European team with decades of experience make us a reliable, high-performance partner – and an attractive employer with a wide range of career opportunities.

The PLIXXENT Group was founded in 2019 from the PU Systems House Division of Covestro. Together with a highly motivated team of about 300 employees at locations in Germany, Denmark, Italy, Spain, UK and the Netherlands PLIXXENT (MRi Polytech) manufactures PU systems with a focus on outdoor systems and special CASE applications (coatings, adhesives, sealants, elastomers). Everywhere we are working at a high level and at the **MRi Polytech location in United Kingdom (near Macclesfield)**, we are looking for an experienced **HSEQ Manager**.

### YOUR NEW CHALLENGE

As **HSEQ Manager**, you are responsible for the coordination of all our HSEQ activities, with special attention to chemical legislation (UK & EU REACH, product registration, COSHH assessments, MSDS, etc.), Process and Plant Safety (HAZOP-study, ATEX requirements, incident management, etc.) and to ensure that PLIXXENT (MRi) complies with all relevant legislation → license to operate. You will support customers & the internal organization in HSEQ-related topics such as general questions and complaint handling. You will participate in PLIXXENT's global HSEQ-network and contribute to development projects with your willingness to exchange ideas and experiences with your global colleagues. Finally, you must play a leading role in ensuring that the company maintains its ISO-certifications.

Major tasks and responsibilities are:

- Ensure that MRi complies with all relevant chemical regulation & legislation (including REACH, product registration, COSHH, SDS, labelling, transport regulations, handling & storage, etc.).
- Process & Plant Safety (PPS) & Occupational Health:  
To ensure employee safety, and the highest standards of occupational health whilst also ensuring that the requirements of the relevant authorities are met, through implementing and conducting HAZOP reviews and ATEX assessments, creating and maintaining an incident management system, etc.
- Safeguard the company's "License to operate"
- Ensure all relevant permits (Fire, environmental, building, etc.) are up to date and fulfil the needs of the authorities.
- Support customers & the internal organization in HSEQ matters.
- Participate in global HSEQ Projects and function as a sparring partner for the other HSEQ-departments (globally).
- Take the leading role in ensuring maintenance of ISO-certification, working closely with auditors & certification bodies.
- Drive towards best-in-class quality by introducing a continuous improvement ethos across the UK organization.

## WHAT YOU SHOULD BRING WITH YOU

- Minimum of 5 years' work experience in a manufacturing environment involving chemicals,
- Knowledge of relevant chemical legislation, Process & Plant Safety, permits and occupational health requirements, ADR-dangerous goods (DGSA experience advantageous), relevant legislation for manufacturing and environmental & waste management.
- Quality Management experience, specifically with regard to ISO 9001 & ISO 14001.
- Ideally NEBOSH-accredited.
- Experience with Microsoft Office, preferably also SAP
- Fluency in English (verbally and written)

With the competencies:

- Leadership skills
- Team building and interpersonal skills
- Structured and analytical approach to problem-solving
- Effective communication, presentation and interpersonal skills
- Customer-oriented
- High interpersonal awareness and social skills
- Proactive and self-motivated

## WHAT YOU CAN EXPECT

At PLIXXENT (MRi) we offer you a friendly and sociable working environment and all the advantages of a medium-sized, international company in start-up mode. We offer freedom to contribute your own ideas and take on responsibility. We cultivate a collegial atmosphere as part of a dedicated and committed team.

## BECOME PART OF OUR TEAM

We are looking forward to your application. Please send your application together with a cover letter and details of your latest or current remuneration package to [career@plixxent.com](mailto:career@plixxent.com).

PLIXXENT respects the principle of equality when hiring people. We do not discriminate based upon religion, race, nationality, gender, colour, sexual orientation, disability or any other personal characteristics. All hiring in PLIXXENT is based upon background experience, knowledge, and suitability to fulfil the requirements of the role and the business.
